

Tandem Skydive

You can complete your Tandem Skydive Waiver in the week leading up to your booking and this will be emailed to you around 3 days before your jump is due to take place. In this waiver you will find the details and agreement for your Provisional British Skydiving membership as well.

You must have a medical to be able to jump! Most people can self-declare their health and fitness and can do so using this form - [British Skydiving form 115A](#). Please take a thorough read through! The form needs to be handed to reception on the day of the jump. If you do not have a printer, we have copies at reception on the day.

If you have read through and are unable to self-declare your health and fitness, please contact the office and we can forward a doctor's certificate to you.

All other information with regards to the day of the jump can be found here! - [Confirmation Pack](#). Please do have a thorough read through this as it will answer any questions you may have!

Please carefully read and understand the following information:

- DEPOSIT where applicable is NON REFUNDABLE unless otherwise stated.
- Minimum AGE to participate is 18 (or 16 with parental consent subject to completion of forms).
- Maximum weight is 101KG (16st) and in proportion with height.
- Due to unpredictable weather, it may take a number of hours to complete the jump. We ask that you potentially make this an all day event.
- Rescheduling is allowed with 5 DAYS NOTICE or if we cancel due to bad weather
- A self-certified declaration of FITNESS is a necessary requirement. For any pre-existing medical conditions, a British Skydiving medical certificate must be signed and stamped by a doctor.
